Bilingual children's book featuring key places in the community of Zapata, TX. Helps introduce the topic of community as taught in the early primary years' social studies curriculum. Assists students' expanding knowledge of their own communities, which forms an important basis for learning about other communities — in other cultures, and in other historical periods.

The activity below asks basic as well as thought provoking questions and aims for students to become more engaged in their community.

The activity is intended to be printed double sided and folded from the middle so as to create a booklet.

The cover page can also be embellished with the use of color and/or other materials.
